

EuroSys 2010: call for affiliated workshops

April 13th - 16th 2010, CNAM, Paris, France

General Information

Researchers and practitioners are invited to submit proposals for workshops to be held in conjunction with the **EuroSys 2010 conference**. The purpose of workshops is to provide a forum for exchanging opinions, presenting ideas, and discussing preliminary results in a small and interactive atmosphere.

Proposals should include:

- Workshop name and a 150 to 200 word abstract describing the workshop, suitable for the conference Web site.
- A short summary of the topic, scope and significance of the workshop including a discussion on the relevance to EuroSys topics. Please include information about past iterations of the workshop, if any.
- Information about the procedure for selecting papers plans for dissemination (for example, special issues of journals, or position statements distributed to the participants), the expected number of participants and the planned workshop format.
- A brief CV of each of the organizers including contact addresses and an identification of a single primary contact.

Please send electronic submissions to **workshop_tutorial_eurosys2010@sigops-france.fr**. You can expect a confirmation on receipt of the proposal. If you do not receive a confirmation, please resend the proposal.

Responsibilities

The EuroSys organization provides:

- Link from EuroSys and Workshop web sites.
- Management of registration for participants.
- Setup of meeting space, and related equipment.
- Coffee-breaks and workshop dinner arrangements.

For workshops interested in publishing their proceedings, the EuroSys organization will provide the following support. Note that workshop proceedings would not be part of the EuroSys conference proceedings, but would be published as a separate volume.

- Collect camera-ready versions of the papers and their copyright forms.
- Provide support for publishing via the on-site CD.
- Provide support to obtain an ISBN number.
- Publish papers in ACM digital library (pending confirmation).

The main responsibility of organizing a workshop goes to the chairperson(s) of the workshop. The workshop organization must take care of:

- Coordinating deadlines and acceptance notifications for workshop papers with the EuroSys Workshop co-chairs.
- Workshop publicity, call for papers, and submission and review process.
- Providing a brief description of workshop for inclusion on the EuroSys web page.
- Scheduling workshop activities in collaboration with the EuroSys local organizers.

Important dates

Workshop proposals due:

October 19th, 2009

Acceptance notification:

November 7th, 2009

Date of Workshops:

April 13th, 2010
